OTHERS

• Trekking

• Cricket

• swimming

EXPERIENCE

HONEYSYS PVT LTD | FULL-TIME | AUG 2023 - PRESENT | BANGALORE

Front-end | JavaScript - Angular.js | LINK

- Developing a highly customizable e-commerce platform with advanced styling options and personalization features.
- Implementing comprehensive admin controls for product management, sales analytics, and SEO optimization.
- Designing a flexible access control system for granular user permissions.
- Optimized website performance, reducing page load times by 40% and enhancing overall user experience.

VLOCITY AI PVT LTD | FULL-TIME | DEC 2023 - AUG 2024 | BANGALORE (SURAT OFFICE)

Front-end | JavaScript - Angular.js

- Led a front-end redesign that resulted in a 70% improvement in user experience (UX) and user conversion rate (UCR).
- Utilized lighthouse and Ahrefs to achieve an 80% increase in SEO ranking.
- Designed a responsive email template to enhance user engagement.

Back-end | Node.js - Loopback - MongoDB

- Successfully integrated a CRM system to streamline client management.
- Implemented a back-end solution that facilitated a 76% increase in new user acquisition (evident in admin panel data).
- Developed an automated tweeting feature to improve brand awareness and social media engagement.

GLORY AUTOTECH | FULL-TIME | FEB 2023 - DEC 2023 | SURAT, IN

Front-end | JavaScript - React.js

- Gain a solid foundation in frontend concepts, delve into React and its advanced features, and get hands-on experience with Redux Toolkit and socket implementation.
- Create an AI-powered chat shopping website with real-time communication and dynamic UI driven by AI responses.
- Empower administrators with a comprehensive style control panel.
- Actively contributed to a component library built with Storybook, strengthening understanding of best practices and collaborative development.

PROJECTS

REWORKED AI | LINK

Angular.js | Node.js | MongoDB | MUI | Mail-Chimp

- Developed an AI-powered website for the real estate and solar industries. This platform utilizes lead scoring and generation to identify and nurture high-value leads, streamlining the sales process for both sectors.

BOTCY

Angular.js | Redux | Socket-IO | Storybook

- an AI-powered shopping platform that uses chat to engage customers, recommend products, and facilitate purchases at nearby stores. It integrates in-store availability with a chat-based payment and shipping system, all managed through a customizable admin panel.
